

RESOURCES CONFERENCE SPEAKERS

This conference is marked by a rich profusion of international and national speakers. Some 30 contributions will be involved in all. Below is a small selection of some of these. Input from the speakers will be analytical in determining scenarios and realities around the challenge of developing resources. Other speakers will reflect theologically on the issue while many of the seminars will deal with practical matters related to the context of South Africa the the needs and potentials of congregations and circuits and the will be looked at. The challenge of the churches commitment to mission will also be a subject in the seminars.
